

PRECISION COATINGS

Case History: Encinitas Civic Center
Coatings: DTM 1300 / PC3v100 / Reflect 3000
Date: May 2009
Owner: City of Encinitas
Area Coated: Metal roof and signage
Description: Fluorinated polymer coated metal roof required restoration due to age and coastal service. The roof was pressure washed, abraded and primed with DTM 1300 and finish coated with Reflect 3000 infra-red reflective coating. The signage was completed with DTM 1300 and PC3v100. DTM1300, Reflect 3000 and PC3v100 are compliant with LEED 2009.
