

PRECISION COATINGS

Case History: MGM Resorts Adventuredome
System: SlipShield 1000 over existing coated floors
Date: 2014
Areas Coated: Floors
Applicator: MGM Resorts

The MGM Resorts Adventuredome is a 250,000 square foot enclosed theme park on the Las Vegas Strip. MGM Resorts tested SlipShield 1000 for 18 months on the entrance floor of the Adventuredome prior to selecting SlipShield for all the floors. Critical requirements for MGM Resorts included slip resistance on wet and dry surfaces, cleanability of the flooring surface and resistance to wear from heavy traffic. After 18 months of testing, SlipShield 1000 demonstrated superior slip resistance and wear as well as providing an easily cleaned surface.
