

**MATERIAL SAFETY DATA SHEET**

Product: PC4v250 Acrylic Polyurethane Clearcoat  
 Manufacturer's Name: Precision Coatings Inc.  
 Address: 1940 E. Trafficway, Springfield, Missouri, 65802

MSDS No. 41000v250  
 Date Prepared: October 21, 2009  
 Emergency Telephone  
 Number:800-424-9300 Chemtrec  
 Other Information  
 Calls: (417) 862-5738

**SECTION-1 IDENTITY**

Common Name (Used on Label): PC4v250 Acrylic Polyurethane Clearcoat  
 Chemical Name: Paint  
 Chemical Family: Acrylic

CAS No: None  
 Formula: 41000v250

**SECTION-2 HAZARDOUS INGREDIENTS/IDENTITY**

Hazardous Components	CAS No.	Vapor Pressure	ACGIH TLV		OSHA		
			TWA	STEL	PEL	CEILING	PEAK
Benzene, 1-chloro-4 (Trifluoromethyl)-PCBTF 70% v/v	98-56-6	5.3mmHg	NE		NE	20ppm	NE
Methyl n-amyl ketone	110-43-0	2.1mmHg	50ppm	NE	100ppm	NE	NE
VM&P naphtha	8032-32-4	5.2mmHg	300ppm	NE	300ppm	NE	NE

**SECTION-3 PHYSICAL & CHEMICAL CHARACTERISTICS**

Boiling Point: 282° F - 329° F      Specific Gravity: 1.200      Vapor Pressure (mm Hg): NE  
 Percent Volatile by Volume: 70      Vapor Density (Air =1): Heavier      Evaporation Rate (Ether=1): Slower  
 Solubility in Water: Slight      Reactivity in Water: None      Appearance: Colorless liquid  
 Odor: Naphthalenic odor

Flammability Classification: OSHA: Combustible Liquid DOT: Combustible Liquid

**VOC as applied (less water & exempt compounds): 177 grams per liter (1.47 lbs/gal)**

**VOC as packaged (less water & exempt compounds): 241 grams per liter (2.01 lbs/gal)**

**VOC of material as packaged: 98 grams per liter (0.82 lbs/gal)**

**SECTION-4 FIRE & EXPLOSION DATA**

Flash Point: 65°F 18°C      Method Used: TCC      Auto-Ignition Temperature: NE  
 Extinguisher Media: NFPA Class B (CO2, Dry Chemical, Foam)  
 Flammable Limits in Air % by volume: LEL Lower: NE UEL Upper: NE  
 Special Fire Fighting Procedures: Water spray may be ineffective on fire but can protect fire fighters and cool containers to prevent pressure buildup. Use fog nozzles if water is used. Full protective equipment, including self-contained breathing apparatus, is recommended.  
 Unusual Fire and Explosion Hazards: When heated above the flash point, emits flammable vapors which, when mixed with air, can burn or be explosive. Fine mists or sprays may be flammable at temperatures below the flash point. Closed containers may explode if exposed to extreme heat.

**SECTION-5 PHYSICAL HAZARDS (REACTIVITY DATA)**

Stability: Stable  
 Conditions to Avoid: Keep away from heat, sparks, electrical equipment and open flame.  
 Incompatibility (materials to avoid): Strong oxidizers  
 Hazardous Decomposition Products: Oxides of Carbon  
 Hazardous Polymerization: Will not occur.

**SECTION-6 HEALTH HAZARDS**

**Acute Overexposure:**

Excessive vapor concentration in air, especially in confined spaces, may cause asphyxiation.

Excessive inhalation of vapors can cause nasal, throat, and respiratory irritation, dizziness, weakness, fatigue, nausea, headache and possible unconsciousness.

Eye contact with liquid or vapor causes severe irritation, redness, tearing, blurred vision, and a sensation of seeing halos around lights.

Prolonged skin contact may lead to extraction of natural oils with resultant dry skin, cracking, irritation and dermatitis.

Swallowing may cause gastrointestinal irritation, nausea, vomiting and diarrhea.

Aspiration of material into the lungs may cause chemical pneumonitis, which can be fatal.

**Notice:** Intentional misuse by deliberately concentrating and inhaling the contents may be harmful or fatal. Reports have associated repeated and prolonged occupational overexposure to solvents with permanent brain and nervous system damage.

**Chronic Overexposure:**

Health studies have shown that many petroleum hydrocarbons pose potential human health risks which may vary from person to person. As a precaution, exposure to liquids and vapors should be minimized.

Prolonged or continuous inhalation of vapors may result in delayed lung damage.

Repeated or prolonged inhalation of vapor or spray mist may cause liver and kidney damage.

Repeated inhalation of vapor or spray mist may cause cardiac disorders.

Repeated inhalation of vapor or spray mist may cause red blood cell and leucocyte disorders which may result in an anemic condition.

**Carcinogenicity:** None

#### SECTION-7 FIRST AID

**Inhalation:** Remove to fresh air. Give artificial respiration if necessary. Consult a physician.

**Eye Contact:** Flush with water for at least 15 minutes. Consult a physician.

**Skin Contact:** Wash with soap and water. If irritation persists, consult a physician.

**Ingestion:** DO NOT induce vomiting. Call a physician immediately. Have the names of ingredients available.

#### SECTION-8 SPECIAL PRECAUTIONS

Observe label precautions. Keep away from heat, sparks and flame. Close container after each use.

Ground containers when pouring. Wash thoroughly after handling and before eating or smoking. Do not store above 120 degrees F. Do not flame cut, saw, braze or weld containers.

#### SECTION-9 SPILL OR LEAK PROCEDURES

Steps to be taken in case material is released or spilled: Remove all sources of ignition. Isolate from oxidizers. Ventilate area. Remove with inert materials and non-sparking tools.

**Waste disposal methods:** Dispose in accordance with all Federal, State and Local regulations.

When discarded, this material is a hazardous waste.

#### SECTION-10 SPECIAL PROTECTION INFORMATION/CONTROL MEASURES

Do not breathe vapors or mists. Wear a positive pressure supplied air respirator (NIOSH/MSHA TC-19C) while mixing activator with paint or clear, during application and until all vapors and spray mists are exhausted. Individuals with a history of lung or breathing problems or prior reaction to isocyanates should not use or be exposed to this product. Do not permit anyone without protection in the painting area. Follow respirator manufacturer's directions for respirator use.

**Ventilation:** Provide sufficient ventilation to keep vapor concentration below the given TLV and/or

PEL.

**Protective clothing:** Solvent resistant gloves are required for prolonged or repeated contact. Refer to safety equipment supplier for effective glove recommendations.

Use safety goggles or safety glasses with splash guards or side shields to protect against splash of liquids.

Other protective equipment such as eye bath and shower should be available. Use chemical resistant apron, boots or other clothing if needed to avoid repeated or frequent contact. Liquid may penetrate shoes and leather causing delayed irritation.

#### SECTION-11 REGULATORY INFORMATION

**OSHA:** This product is considered hazardous under the Federal OSHA Hazard Communication Standard.

**SARA Title III Section 302 Extremely Hazardous Substances:**None

**SARA Title III Section 311/312 Hazard Categories:**Immediate health, delayed health, fire hazard.

**Section 313 Supplier Notification:** The chemicals listed below with percentages are subject to the reporting requirements of Section 313 of the Emergency Planning and Right-To-Know Act of 1986 and of 40 CFR 372:

<u>CAS Number</u>	<u>Chemical Name</u>	<u>% by Weight</u>
100-42-5	Styrene	0.05
108-88-3	Toluene	less than 0.1
71-43-2	Benzene	less than 0.01

**Hazardous Air Pollutants:** Styrene, toluene, benzene

**Hazardous Waste:** When discarded in its supplied form, this product must be considered a hazardous waste.

**TSCA status:** All ingredients are TSCA registered.

**CEPA status:** All ingredients are listed on the DSL or NDSL.

**Proposition 65 Warning:** This product contains chemicals known to the State of California to cause cancer, birth defects or other reproductive harm: toluene, benzene

**DOT Proper Shipping Name:** Paint; **Hazard Class or Division:** 3; **ID #:** UN1263; **Packing Group:** II
