MSA Consulting, Inc. is the premier Planning, Civil Engineering and Surveying firm in Southern California's Coachella Valley. Serving private developers and public agencies since 1976, MSA's exceptional team of planners, engineers, technicians and administrators has earned the company a solid reputation for reliability, accuracy and timely performance.

MSA is a progressive, innovative firm passionate about producing exceptional work while collaborating successfully with clients and other project team members. The firm's dedication and respect for local communities and the environment is tantamount to its core mission. In the past 40 years, the firm has successfully completed over 2,300 projects and studies, involving planning, design, surveying, and construction administration.
